Fox Chapel Authority Minutes – July 29, 2014
Allegheny Valley North Council of Governments – August/September 2014
Harmar Water Minutes – July 15, 2014

A citizen stated concerns about the water issues she currently has on Campbell's Run Road and believes that logging the hillside will increase the water runoff. Mr. Exler asked if the citizen would be amenable to the Township assisting with the water runoff.

Mr. Exler commented on the Harmar Water Minutes and stated that he was in attendance at the July meeting and although the minutes state there is no comment from the floor, Mr. Exler provides that he made statement to the Water Board that objected to the current rate being charged. Mr. Exler stated that he intend to follow-up and pursue a reduction in water rates.

SOLICITORS REPORT

Attorney Means explained the advertising procedures to be followed in regard to amendments to the zoning ordinance and that the Board is unable to revote on the amendment request tonight. In addition, Mr. Means stated that a vote is not passed unless there is a majority vote from those present. Mr. Exler asked if the amendment could be reworded to only the parcel/location proposed. Mr. Means stated that the amendment is in reference to the entire C-2 Zoning District and if a majority of the Board would decide in favor of bringing the issue back before the Board, the Planning Commission should be advised.

Ms. Toney made a motion to authorize the proposed amendment to be advertised again on November 6 and November 13 for a Public Hearing on the November 20. Mr. Chalmers provided the second. There being no mention of this topic on the agenda, the Chair asked for Public Comment.

A citizen stated opinion in favor of churches locate in the C-2 zone.

A citizen asked how big the C-2 zoning district is and how much of that area would be tax free. Mr. Means explained that only churches in the C-2 district would be tax exempt. The same citizen asked if the church is leasing or purchasing the property. The Pastor answered, purchasing. The citizen asked if more churches could move into the C-2 District – other than the Church present. Mr. Means stated that the entire C-2 District would be open to churches. The citizen then stated concerns in regard to the loss in real estate tax revenues.

Ms. Janoski stated that the catholic parish that is located in the C-2 District pays real estate taxes.

A citizen stated that a land rush in the C-2 District for churches is not a valid concern. The citizen then made reference to the Pitt Ohio Development and that Mr. Exler voted for the tax reduction. Mr. Exler stated that is incorrect and that he did not vote against Pitt Ohio but voted no to a tax reduction.

A citizen stated concerns in regard to the advertised wording of the amendment in regard to churches and places of worship. Mr. Means stated that any change in the ordinance would need to be sent to

County Planning and would cause a 45 day delay. Mr. Means further stated that the wording was established 25 years ago and is applicable to other zoning districts.

A citizen asked about changing the C-1 zoning district boundary. Mr. Means stated that the C-1 District is not part of the motion at hand.

A citizen expressed that the loss in real estate tax revenues is minimal in the relative perspective of things.

A citizen asked if there is a way to change the zoning only on the property in question. Mr. Means answered that the only topic that has been examined is to add the church to a C-2 District.

A citizen stated that the easy answer to other churches coming to the C-2 District is for the Planning Commission to vote no to the conditional use request.

A citizen asked how long it has been since a new church has come to Harmar. It was established that it has been approximately 20 years since the last like request.

Mr. Exler stated that the issue at hand is the zoning district location and not against churches.

Ms. Janoski asked for a roll call vote to the motions on the floor:

Mr. Chalmers - yes

Mr. Exler – no
